EMPLOYMENT

2010 - Present Training Officer /United States Department of Health and Hospitals/ASPR/NDMS/LA-1 DMAT
As training officer for a federal National Disaster Management System Disaster Medical Assistance Team, I train professionals from all aspects of healthcare to plan for and establish a mobile hospital in a disaster area in order to provide immediate life saving resources to the victims of disasters. Many times DMAT teams are one of the first rescue teams in a disaster area providing life saving interventions to sick and injured patients. We coordinate triage, treatment, and evacuation services to the victims of disasters.

2010 – Present Manager/ LaCour Industries, LLC
I am the manager and employee of LaCour Industries, LLC. This is professional business consulting firm with the mission of helping businesses specifically in the area of healthcare become more competitive in today's ever changing economic climate. The goal of the company is to help managers and executives become more productive and generate more revenue with little or no increase in working capital or expenditures. We train executives, managers, and executives to become more productive with tools and resources in place in their company and train them to become more effective in utilizing the tools they already have.

2009 – Present Education Coordinator / National EMS Academy
My primary role as an Education Coordinator is to teach the National Standard Curriculum and National Education Standards for Paramedics to EMT and Paramedic students in the Emergency Health Sciences Program at the National EMS Academy. This role also includes teaching continuing education courses to Paramedics actively working in the field of pre-hospital medicine. I also function as the manager of a satellite campus of the National EMS Academy and I am responsible for the entire day to day operations of the site. This involves the supervision of employees and students, effectively utilizing budget items and funds, coordinating training and continuing education with public and private hospitals and ambulance services, and ensuring the proper curriculum and training are taught to students in EMS Classes.

2008 – Present Asst. Coroner / Avoyelles Parish Coroner's Office
Function in the capacity of Coroner in his absence. This includes the investigation of suspicious deaths, child abuse and neglect, and rape for the Parish of Avoyelles. I investigate crime scenes and have arrest authority through the Executive Branch of the State of Louisiana.

2006-2009 Field Training Officer / Acadian Ambulance Service – Capitol Operations
I was responsible for the tracking of all of the narcotics in the Capitol City area, as well as the Quality Improvement program in the Capitol City Area. I work very closely with the Chief Medical Officer in protocol and medical policy development. I was also responsible for identifying and mitigating quality issues specific to the medical treatment of patients served by Acadian Ambulance Service in an effort to improve the delivery of Emergency Medical Care to the citizens of Louisiana. I worked closely with medical directors and administrators of Public and Private Hospitals, State Officials, and Executive Board Members of Acadian Ambulance Service and other Ambulance Services in South Louisiana to improve the delivery of medical care to the entire state.

2007-2007 Medical Officer / Avoyelles Parish SWAT Team

Responsible for the development of medical treatment protocols to be utilized by the Emergency Medical Technicians functioning on the SWAT team. Developed and tracked the physical capabilities and medical needs of the members of SWAT members. Designed, tracked, and developed medical threat assessments for protective service details, hostile environments, extended operations, and special needs deployments.

2005-2007 Police Officer/Moreauville Police Department
I was responsible for patrolling and enforcement of federal, state, and local laws in Moreauville, Louisiana. This included arrest authority.

2005-2007 Police Officer/Mansura Police Department
I was responsible for patrolling and enforcement of federal, state, and local laws in Mansura, Louisiana. This included arrest authority.

2005-2006 Nationally Registered EMT-Paramedic/Acadian Ambulance Service Inc.
Medic Support Center Operator.
I assisted other EMT's and Paramedics with medical documentation and medical billing. I entered medical information into electronic medical records and complete digital invoicing for patient billing.

2004-2006 Nationally Registered EMT-Paramedic/ Acadian Ambulance Service Inc.
Field Paramedic
I worked as a field paramedic for Acadian Ambulance Service Inc. I provided emergency medical care for a wide variety of medical problems in a pre-hospital environment. I performed emergency medical record audits to assist Acadian Ambulance's Quality Assurance Program.

1998-2004 Corrections Lieutenant/ NREMT-P, Louisiana State Penitentiary
I was responsible for assigning work locations for five to seven members of the shift I was supervising. I was also responsible for monthly training conducted on each shift.

2002-2004 Anatomy and Physiology Laboratory Instructor, Our Lady of the Lake College
I coordinated classroom and laboratory activities for College Level Human Anatomy and Physiology Laboratory Classes. This included lectures, examinations, and

1998-2000 Nationally Registered EMT-Paramedic, Med Express Ambulance Service
I was responsible for an advanced life support ambulance. I assisted in providing emergency medical services for the area covered by Med Express Ambulance Service.

1997-1998 Corrections Sergeant/NREMT-Basic, Louisiana State Penitentiary
I was responsible for providing basic life support on an advance life support ambulance and in the Assessment and Treatment Center at Louisiana State Penitentiary.
